

INTERWEST
INSURANCE SERVICES, LLC

Indoor Farming

Contain has an exclusive partnership with InterWest Insurance Services to create a program designed specifically for Indoor Ag.

InterWest is one of the largest privately held insurance brokers in the US and has supported the agricultural community for more than a century. We understand the reasons modern indoor farms are different and improved over conventional farms of yesterday. Most importantly, since indoor farming is cleaner and safer, insurance premiums should be less.

As a Contain client, InterWest will offer additional services, such as specialized claims assistance, risk management, and HR consulting. Bilingual (Spanish/English) ag specific risk control training documents also available. By working together, we will help you save money and better protect your farm.

InterWest can offer all of the standard insurance coverages, as well as those unique to Indoor Ag.

- Business Auto
- Employee Benefits
- General Liability
- Property, including Mechanical Breakdown and Crop
- Workers' Compensation
- StockThroughput protects against losing product(s) for almost any reason between harvest and the time you are paid. While your product is in storage or in transit, there is coverage.
